## SUMMARY

Entry-level Software Engineer and recent graduate in Informatics and Computer Engineering Education from State University of Jakarta. Skilled in building responsive web applications with Vue.js, JavaScript, and Tailwind CSS, with hands-on full-stack experience using Laravel, Nuxt, and native Android development with Kotlin and Jetpack Compose. Completed a 4-month internship developing front-end features and integrating RESTful APIs for internal web systems. Familiar with MySQL, Redis, Docker, Git-based collaboration, and agile workflows. Quick to learn new technologies and comfortable working in cross-functional teams.

## WORK EXPERIENCE

**FRONT-END DEVELOPER (INTERN)**
PT. Daya Gagas Internasional | March – July 2025 (4 months)

- Built responsive pages for the DapurGo web app using Vue.js and JavaScript based on Figma prototypes.
- Implemented CRUD features for Product, Dish, and Supplier modules with RESTful API integration.
- Developed reusable Vue components to maintain UI consistency across multiple dashboard pages.
- Collaborated via GitLab, ClickUp, and Google Meet in a cross-functional team.

**TEACHING PRACTICUM TEACHER (PKM)**
SMAN 53 Jakarta | Odd Semester, Academic Year 2025/2026 (1 semester)

- Taught mobile app development (Kodular) and Microsoft Word to Grade 10–12 students.
- Practiced lesson planning and translating technical concepts for non-technical audiences.

## PROJECTS

**INVENTORY MANAGEMENT SYSTEM (CAMPUS) |** Laravel, Vue.js, Inertia.js, Tailwind CSS, Chart.js

- Built a web-based SPA replacing manual asset tracking with CRUD, loan management, and asset history logging.
- Implemented RBAC, Chart.js dashboard, dark mode, and PDF/CSV export functionality.

**CLIPSYNC (PERSONAL) |** Vue.js, TypeScript, Nuxt, Bun, Redis, WebSocket, Docker | **TitoAdhitya06/ClipSync**

- Created a real-time clipboard and file-sharing app for devices on the same LAN using WebSocket and Redis pub/sub.
- Supports multi-room sessions with QR Code access and real-time sync via WebSocket, file uploads up to 50 MB, and auto-expiring storage.

**SPACEBRIDGE (PERSONAL) |** Kotlin, Jetpack Compose, Firebase, Drive API | **TitoAdhitya06/SpaceBridge**

- Built an offline-first Android app for text and checklist notes, synced in real time through Cloud Firestore with offline persistence.
- Integrated Google Drive REST API for file storage, using 64 KB buffered streaming resumable uploads via WorkManager that track real-time progress and continue after a dropped connection.

## EDUCATION

**State University of Jakarta** 2022 – 2026
Informatics and Computer Engineering Education GPA : 3.77/4.00

## SKILLS

**Web:** HTML/CSS, JavaScript, TypeScript, Vue, Nuxt, Tailwind CSS, Inertia.js, Laravel, MySQL, Redis, REST API
**Mobile:** Kotlin, Jetpack Compose, Android, Firebase, MVVM / Clean Architecture
**Tools:** Git, Docker, Unit Testing
**Soft Skills**: Analytical Thinking, Problem Solving, Team Collaboration, Adaptability
**Languages**: Indonesian (native), English (intermediate)
